Gary France
Queensland Conservatorium of Music
Canberra, ACT 2601
Australia

Dear Gary,

I'd like you and your students to know what a pleasure it was to visit and perform with you last month. Your students were extremely enthusiastic, and received my music and ideas with great warmth. The end result was a tremendous concert, one that everyone should be proud of.

As a program just beginning to grow, it's obvious that the future holds great percussion potential at ANU. And in your hands there's no doubt that this potential will be realized.

The people that I met in the university and surrounding community could not have been more friendly or professional. I hope I have the opportunity to visit again at some point soon.

Best wishes in the upcoming millennium,

Yours sincerely,

Arthur Lipsett
