## A bit about Gary France

Since arriving in Australia some 30 years ago, Gary France has had an enormous impact on the Australian percussion community. One of Gary's trademarks as an educator lies in his willingness to share from his deep pool of knowledge in the fields of jazz, classical and world music (as a world music performer, his own personal research has led him to India, Africa, Brazil, Cuba and South East Asia). His students have gone onto become the next generation of Australia's top percussive arts experts, with many of them teaching in highly-respected tertiary institutions throughout the world.

The Groove Warehouse, Gary's brain child, combines music education and performance with entrepreneurial excellence.

The Catalogue will take you on a journey as you explore outstanding percussion instruments sourced from around the globe.
